Did you know that food systems account for roughly one third of global greenhouse gas emissions?

In collaboration with Klimato, we share insights into your meal's carbon footprint.

Currently, an average lunch or dinner generates a carbon impact of 1.7 kg CO₂e.

Join us in supporting the UN's climate goals by striving to reduce this impact per meal to 0.5 kg CO₂e or less. Relish delectable food while contributing to a positive environmental impact.
